👤 PROFILE

I am a 20-year-old front-end developer who is passionate about creating web applications with a great user experience. I enjoy building interactive and beautiful websites, prioritizing user happiness, accessibility, teamwork, and clean code. I am always eager to learn and contribute.

🧠 SKILLS

React

JS

TS

Tailwind

Appwrite

CSS

Accessability

🎓 EDUCATION

Diploma, Computer Engineering

YBP, Sawantwadi

2021 – 2023

📁 PROJECTS

Photto. [🔗](#)

- Created a dynamic photo-sharing social media platform where users can easily log in, sign up, & post their pics. Designed a laid-back space for posting & enjoying photos.
- Tech stacks include **React**, **Tailwind CSS**, and **Appwrite** as the backend. The UI is styled with the **ShadCN**, seamless navigation with **React Router**, & **TypeScript** is used.

Amazon Clone [🔗](#)

- Using **React**, **Material UI**, and **Firebase**, I built a user-friendly version of Amazon that allows users to sign up, log in, add items to their cart, remove them, and make secure payments with **Stripe**.

Rock Paper Scissors [🔗](#)

- Built an interactive game using **JavaScript**, **HTML**, and **CSS** to showcase frontend skills and logic.
